MEMORANDUM FOR: Chief, Resources Division, ORR

ASSIGNMENT

: [REDACTED]

FROM

: Chief, CIA/PID/(NPIC)

SUBJECT

: Ting-Chiang Hydro-Electric Power Plant

REFERENCES

: Requirement Number ORR/41/62, Revised 17 June 1963
Project Number C-754-63

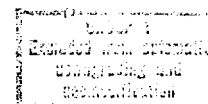

1. In compliance with the above referenced requirement, a search of photography was conducted to ascertain the status of the Ting-Chiang hydro power facility. In all, 9 separate missions dating from [REDACTED] were searched in an effort to locate the dam site.

2. The river was searched up-stream and down stream for a distance of approximately 30 miles from the coordinates given (24 24 N - 116 35 E). In addition, 2 tributary streams were examined for approximately 10 miles up-stream from the point of convergence with the Ting-Chiang. These investigations failed to disclose any construction activity associated with dam building, nor was any completed dam discovered. In the opinion of the analyst, reports of this Hydro-power plant being in existence or a/c are erroneous.

3. The missions examined in this study were as follows:

Declass Review by NGA.
